

THE GREAT TREE AND THE UNIVERSAL WAVE CALENDAR

Starting 9th March 2011 (it has taken 16.4 Billion years to manifest)

The seed of the "Tree of Life" came from the "Great Mystery"

The Great Mystery allowed for a seed to be planted some 16.4 Billion years ago and this has grown to manifest as the "Tree of Life" forming the many branches from its tall trunk that stands humble and wise with love.

The root of the "Tree of Life" is given energy from the beautiful fertile soil in the garden of the universes "Great Mystery"

This energy fuels the "Tree of Life" and this in turn feeds the collective consciousness to be consciously alive.

In becoming life out of nothing the greatest miracle manifests

The Great Spirit that was given sacred powers from the Great Mystery intended the growth of the sacred "Tree of Life". This conscious action of love allowed for the anti matter to become the matter.

A new branch is about to start that is aligning consciousness to the trunk of the "Tree of Life" and her roots that connect to the infinite universes "Great Mystery". This new branch is allowing for a new connection to the "Great Mystery" and her Garden of fertile soil. This connection will bring things to change to new levels of awareness as we live to explore our existence.

The new branch of the "Tree of Life" is about to be initiated from the "Great Mystery" as the 9th wave of universal Co-Creation, according to the consciousness of the Mayan calendar.

The Mayan calendar represents the "Tree of Life".

The Mayan calendar's 9th level of consciousness will bring in the Universal Wave, as a process from seed to fruit, starting on 9th of March and ending on the 28th of October 2011.

For the first day from 9th to 26th March I am feeling the "seeds of unity" as a vibration of sacred intension into action and doing, and this shining a light of love, resonating through the collective consciousness.

We are arriving at a time in the universe where everything will be divinely guided because we will align directly to the centre of the universes "Great Mystery". The universal frequencies of love will resonate through the collective consciousness. This means that the collective consciousness of humanity will be guided divinely. In other words we will align with creations original intention and sacred flow, in harmony and balance. If one looks at the world then one realizes why things are in chaos, because everything is changing to become one with creation. We will

sacredly exist as co-creators of heaven on earth in the "Garden of Eden", naturally trusting with truth from our infinite heart of unconditional love.

The collective consciousness is the fruit of the "Tree of Life". We are about to become ripe with the original intension of love.

Only in love can we exist in paradise. Life is a privilege.

The Mayan Calendar shows the process of growth from seed to fruit on the TREE OF LIFE. For this reason it is the divine calendar with a prophetic outcome. The prophecies show us that only with love can there be life.

On each of the 9 levels of the Mayan calendar are the 13 divisions... these divisions, also known as heavens are the 7 days and 6 Nights. The 1st division in the 1st level has a resonance to the 1st division or the 1st day in all the levels and we are about to reach the 1st day in the 9th and last level on the 9th of March 2011. Thus we are aligning to the trunk of the tree and her roots.

The 8th level resonates to the right brain and eastern hemisphere and thus a closer connection to spirit. This started on the 5th of January 1999, with the fruit growing to become a Galactic consciousness which came into fruition on the 3rd of November 2010. This 12.8 year period from 1999 to 2011 comprises basically of 13 by 360 day Tun calendar cycles which are the 7 periods of light and 6 periods of dark of the 8th level.

You can add your own experiences into these times from 1999 but for me it has been a time of deep exploring within, life is teaching me to trust the divine flow as I see myself connecting to my truth within. I have realized that I am anything but separate. You are me and I am you. We are reflections of each other. Everything is a choice. Who you are and where you come from and what you have become is all part of your choice. This is your reality and equates to your consciousness. The center of who you are is your timing system which for the most part is governed by the physical movement of the earth around the sun. From a physical point of view this keeps our consciousness pinned down to the 3rd dimension and does not help us to connect to the infinite universe where all potential dwells. The Mayan calendar works with a system that allows one to connect to your spiritual growth and for this reason it is becoming very popular with more spiritually inclined people. Aligning to the Cosmic Mayan calendar rhythms and cycles allows you to connect to the divine plan of oneness with the universe. The Mayan calendar is a spiritual calendar that shows the evolution and transformation of consciousness from the spiritual dimensions to the physical 3rd dimension. We are not just physical. With every breath we are manifested into existence. Our minds have a hard time grasping this because we are not our minds. Our heart knows this because this is where our essence comes from. Our heart connects us to the Great Spirit.

The 9th level starts on the 9th of March 2011 and I feel will resonate to the hearts infinite Oneness and a unitary open and clear consciousness with no divisions affecting the global brain (or our brain = opening us up to a clear path to the heart, with no filters = we will be able to connect to the universe like never before = the last time we had a clear and open path to the infinite cosmos was on the 5th level which moved into resonance with the next level 5125 years ago, filtering our collective consciousness to the left brain half, favoring material values). Our collective global brain is about to favor no separations.

The 9th level will be 234 days in length and will prepare us for entry into a place of sacred existence with the multi-dimensions of the infinite universe (this is the way I am seeing it).

The 7th day and fruit of the 9th level will bring the consciousness of complete "Universal Co-Creation" and the 7th day will start on 11th October 2011 and complete on the 28th of October. The same period on the 8th level is 360 days long and 20 x bigger, from 3rd of

November 2010 to 28th October 2011. Each day and night of the 13 divisions of the 9th level to infinite expansion is 20 x smaller and will be 18 days. This equates to the feeling of time speeding up, but actually Creation is quickening and shifting the ages to converge and give birth to the new golden age of peace, harmony and balance.

Through the 13 Heavens of 18 days on the 9th level, Creation is divinely intending its growth process from seed to fruit on the Tree of Life. This will manifest a new consciousness on earth, one that will have to bring the collective consciousness closer to center.

The Galactic Waves 8th level as a cross reference to the Universal Waves 9th level

We will walk through this now and as we do this we can look back in consciousness to see what we were up to and how life has grown from a seed to a mature fruit through the Galactic Wave. And we can look forward in consciousness to see what each 18 day cycle of the 9th level might bring but with the understanding that it will resonate to Oneness. For me the understanding is that the 8th Level resonates to a spiritual connection within and thus to the cosmos without, preparing us in alignment with the 9th Wave of the hearts Oneness.

1. First 360 day Tun cycle - 1st Day starts on 5th January 1999

1 = Initiates (sowing the seeds)

Cycle one is a period of light or an opening for the growth of consciousness. The seed is planted and it is time for a new beginning to create the flow in a new direction. For some it may have been a time of being unsure as we entered a new millennium. One is the beginning of all things and new perceptions are available.

**(First 18 day cycle of Universal wave - 1st Day = 9th
March to 26th March 2011)**

2. Second 360 day Tun cycle – 1st Night starts on 31st December 1999

2 = Creates a reaction (Germination of the seed)

Cycle two is a period of dark or the opportunity to apply the enlightenment just received from creations flow. The germination of the seed allows for new points of view. To be or not to be is the question. We are separate but one. We are 2 sides of the same coin and the coin will not be whole if we only look at one side. It is the application of “initiates”.

After the seed is planted, does the seed grow or not? Have you noticed that before something begins we hold our breath in anticipation? Breathe in and let go with trust.

**(Second 18 day cycle of Universal wave – 1st Night =
27th March to 13th April 2011)**

3. Third 360 day Tun cycle - 2nd Day starts on 25th December 2000

3 = Activates

Cycle three is another period of light, in nature the seed sprouts and displays 2 leaves. New points of view override old ones. History has shown this period to be a time of civil

turmoil. This is the new light that brings the movement. The question is answered through communication. Sept 11, 2001, a big movement was communicated to the world.

**(Third 18 day cycle of Universal wave – 2nd Day = 14th
April 2011 to 1st May 2011)**

4. Forth 360 day Tun cycle – 2nd Night – starts on 20th December 2001
4 = Stabilizes (Reaction for the seed to grow)

Cycle four is a period of dark when polarized factions come to blows over their differences. In human history these are peeks of violence. The 4 sides of a square bringing complete balance. The 4 directions connect with the center to bring about freedom from past barriers.

**(Forth 18 day cycle of Universal wave – 2nd Night = 2nd
May to 19th May 2011)**

5. Fifth 360 day Tun cycle – 3rd Day starts on 15th December 2002
5 = Empowers (Sprouting)

Cycle five is another period of light and in nature the development of a root system and the second set of leaves that will be the permanent part of the plant. Lies are disclosed so that progress is not blocked.

**(Fifth 18 day cycle of Universal wave – 3rd Day = 20th
May to 6th June 2011)**

6. Sixth 360 day Tun cycle – 3rd Night – starts on 10th December 2003
6 = Creates flow

Cycle six is another period of dark and the seedling set of leaves are dropped from the plant as another set of leaves spring from the top. Failed systems are washed away, usually by force.

**(Sixth 18 day cycle of Universal wave – 3rd Night = 7th
June to 24th June 2011)**

7. Seventh 360 day Tun cycle – 4th Day – starts on 4th December 2004
7 = Reveals (Proliferation)

Cycle seven is a period of light where in the plants life good progress is made for it to develop into a strong tree, the taproot grows deep to firmly attach the plant while the stock thickens and branches form. It is a period of expansion of the foundations laid. New points of view and ways of doing things take dominance.

**(Seventh 18 day cycle of Universal wave – 4th Day =
25th June to 12h July 2011)**

8. Eighth 360 day Tun cycle – 4th Night – starts on 29th November 2005

8 = Harmonizes

Cycle eight is a period of dark and brings the application of new procedures. The plant multiplies its leaves and root system abundantly. In human evolution it has been a time of rebuilding and healing.

**(Eighth 18 day cycle of Universal wave – 4th Night =
13th July to 30th July 2011)**

9. Ninth 360 day Tun cycle – 5th Day – starts on 24th November 2006

9 = Creates forward movement (Budding)

Cycle nine is the brightest period of light (Quetzalcoatl – God of Light – Christ consciousness) and in the plants life it is when the chemicals are produced that carry information for the buds to form. In this period was when art was invented, the message of Jesus moved over Earth, Einstein discovered the theory of relativity and America with the victory of WW1 rose to world power.

**(Ninth 18 day cycle of Universal wave – 5th Day = 31st
July to 17th August 2011)**

10. Tenth 360 day Tun cycle – 5th Night – starts on 19th November 2007

10 = Challenge (main leaves fall off)

Cycle ten is the darkest period of dark and in the plants life it is the growth of the bud. In your life it was puberty. This has been a time of great physical hardships or major conflict. Going back in time, the Illonian Ice Age, Neanderthals going extinct, World War II, the Great Depression of the 1930's and more recently the World markets finding challenges and crashing in 2008 were examples of this cycles energy.

**(Tenth 18 day cycle of Universal wave – 5th Night =
18th August to 4th September 2011)**

11. Eleventh 360 day Tun cycle – 6th Day – starts on 13th November 2008

11 = Creates clarity (Flowering)

Cycle eleven is an enlightenment period of light and this brought the flower in a plants life. For you it was adolescence. In human history this was the creation of the 1st tools, the 1st attempts at agriculture and constructed shelter, the renaissance and the flower children of the 1960's. This has also recently seen the Flowering of our spiritual consciousness on a galactic level. Many of us are meeting our galactic neighbours.

**(Eleventh 18 day cycle of Universal wave – 6th Day =
5th September to 22nd September 2011)**

12. Twelfth 360 day Tun - 6th Night – starts on 7th November 2009

12 = Creates understanding (Wilting of flower)

Cycle twelve is the last period of dark. In the plant's life the flower wilts and dies, setting the stage for the fruit development or of seedpods that will dry. This is what happened to

the Maya civilization right on queue. Throughout human history there have been conflicts and revolts during this period, most recent of these being the Vietnam War.

**(Twelfth 18 day cycle of Universal wave – 6th Night =
23rd September to 10th October 2011)**

13. Thirteenth 360 day Tun cycle - 7th Day – starts on 3rd November 2011
13 = Completes (Fruition - The fruit becomes ripe with its seeds of purpose for next cycle)
Cycle thirteen and a period of bright light, a time of readiness for something new and different. This is a time of ascension – going from one level to the next higher level. The plant spreads the seeds or drops the fruit to begin again a thousand times over. In human history it was during these repeated cycles of seed to mature fruit that consciousness developed Homo sapiens, agriculture and domesticated herds, signed treaties to establish the sovereignty of nations and their people and put up the Internet creating a planetary consciousness in 1992. On the 3rd of November 2010 we were at the precipice of the fruit of Galactic consciousness which bore the seeds for our spiritual growth.

**(Thirteenth 18 day cycle of Universal wave – 7th Day =
11th October to 28th October 2011)**

For me the Mayan calendar allows one to see an ultimate divine plan to Creation. It allows one to align to the consciousness of Creation and become one within Creation. The Mayan calendar maps the evolution and transformation of life which has grown through dualistic shifts in a process from seed to fruit on the tree of life. The Mayan calendar aligns us to an intuitive heart space because it is a natural non manipulated timing frequency which synchronizes with nature's natural flow of unseen but yet felt rhythms and cycles. For me the evidence of flow in nature can be seen by our Mother ocean, she has cycles of ebbs and flows through her water body (which is connected to our body of water). This one can see by looking at the cycle of the tides and one can see by looking at the rhythmic movement of her swell's which form her waves. And these rhythms and cycles connect with her atmosphere but for the most part we can not see this, we can only feel this. The ancient Mayan calendar is "The Divine Calendar" of today and has arrived within consciousness on schedule; realigning our consciousness to a natural timing frequency. This natural alignment to the centre of the universe is serving Creation divinely and is the needed "rinse cycle" from our past collective unconsciousness. This unconsciousness happened as a divinely planned intention and is part of our evolutions journey to become one with the Universe. As we arrive in alignment with the Oneness of the universe we are automatically washing away the minds doubt so as to connect in unity to the truth of the heart within and the heart of the Universe, thus to intuitive feel what our purpose might be. Learning to trust this intuitive alignment is the key to unlocking the door of infinite potential.

Summary of the 13 Heavens for each of the 9 levels

1st Day = a divine intention is started with the 1st heaven = (initiation-1 = Sowing) by planting the seed... 1st Night = we then (create a reaction -2) for its growth, by watering the soil... 2nd day = bringing the (activation-3 = Germinates) for the plant to grow... 2nd Night = to become (stable-4) and strong... 3rd Day = for receiving (empowerment-5 = Sprouting)... 3rd Night = then its journey is attracted to (flow-6) upwards... 4th Day = and eventually (reveal-7 = Proliferation) more... 4th Night = thus allowing for a sense of (harmony-8)... 5th Day = and this (creates forward movement-9 = Budding, Quetzalcoatl)... 5th Night = his eventually leads to the (challenge-10 = Destruction) to manifest a higher sense of purpose... 6th Day = bringing the (creation of clarity-11 = Flowering)... 6th Night = and then the (creation of understanding-12 = Wilting)... 7th Day = how to (complete-13 = Fruition) to become the fruit that will bear the seeds for the next fruits...
